

ASSESSMENT 3 BRIEF

MODULE CODE	COM7016
MODULE TITLE	MSc Project
MODULE LEADER	Nick Mitchell
ASSESSMENT TITLE	Project Report
WEIGHTING	40%

ASSESSMENT LEARNING OUTCOMES

Upon successful completion of this assessment, you will be able to:

1. Select, apply and justify appropriate techniques to solve a complex problem that meets a combination of societal, user, business and customer needs as appropriate.
2. Contextualise project work, aligning it with academic literature or with other solutions, as well as with relevant professional codes of practice, research ethics and integrity.
3. Produce a practical, substantial, complex piece of work within a specified timescale based on an agreed specification using project management techniques.
4. Communicate the process and product/findings of the work in an appropriate format, articulating the legal, social, ethical and professional issues surrounding an extended project.
5. Reflect on and evaluate the value of the work achieved and critically reflect on it.

INSTRUCTIONS

This is a substantial report, detailing and documenting the fulfilment of your negotiated project and demonstrating you have acquired the depth of knowledge and academic rigour expected at Level 7.

You are required to submit a ~6000-word report that documents the methodology you followed, any development work you have undertaken, and an evaluation of the results you obtained. The report should also make clear the wider social and/or business context underpinning the project (For example: What is the wider social/political issue around the use of data and AI? Why is it important that businesses act to address it and how data science and AI techniques can contribute to solve this issue? How big data analytics benefit businesses?).

You should use the Microsoft Word template provided on Moodle to prepare your report. You may add or remove sections as necessary, but should adhere to the formatting style. It is expected the following key sections will be included for any project:

- Title & Abstract (not included in word count)
- Introduction
- Literature review
- Methodology
- Implementation
- Results
- Discussion
- References (not included in word count)
- Appendices (optional and not included in the word count)

SUBMISSION DETAILS

RELEASE DATE	21 st April 2026
SUBMISSION DATE	28 th August 2026
DELIVERABLES	A report in Microsoft Word or PDF format

SUBMISSION DETAILS

Submit your assignment by uploading it to Moodle before midday on the submission date. This deadline will be automatically and strictly enforced. If your submission is late, your grade may be affected. If you have any issues submitting your work, you must email the assessment team and copy in the module leader before the assessment due time. Do not leave your submission until the last minute to avoid any penalties due to problems with the submission portal.

Assessment Team: assessment@leedstrinity.ac.uk
Module Leader: n.mitchell@leedstrinity.ac.uk

We may ask for a demonstration of your work following the submission. If needed, this will be communicated to you individually via email. Please check your emails regularly.

Your feedback / feed forward and mark for this assessment will be provided within 15 working days.

MARKING CRITERIA

Marks are awarded based on the following criteria. Within each part, aim to complete the work for each section before moving on to the next. The following banded marking scheme is used:

<i>Exceptional</i>	100/95/92		<i>Pass</i>	58/55/52
<i>Distinction</i>	88/85/82		<i>Bare Fail</i>	48/45/42
<i>Distinction</i>	78/75/72		<i>Fail</i>	38/35/32
<i>Merit</i>	68/65/62			

If you have completed all the preparatory exercises and attended your classes, the estimated additional time required to PASS this assessment is approximately 200 hours.

Please note that threshold marking applies to this assessment. If you do not meet the criteria within a marking category, your overall mark will be capped at the maximum for the preceding category, and you will not be eligible to achieve marks in higher categories. To ensure a pass, you must complete all tasks specified in the PASS Mark (50%) criteria. Only once these requirements have been fully satisfied should you focus on meeting the criteria for higher mark bands.

To obtain a PASS mark (50%), you must have:	○ All required sections of the report attempted to a reasonable standard. ○ A reasonably clear rationale for chosen technologies and methodologies. ○ Acceptable evaluation of work undertaken. ○ Some consideration of relevant issues (legal, societal, etc.). ○ A reasonable analysis and sensible conclusions drawn in an attempt to answer the research question. ○ Reasonably consistent and suitable referencing.
To obtain a MERIT mark (60%), you must have (in addition to the above):	○ Well-structured report using suitable language and tone. ○ Good depth and breadth of knowledge and skills demonstrated. ○ Thorough consideration and justification for methods of analysis, design and implementation of artefact. ○ Robust evaluation. ○ Social/business context expressed and reasoned, showing awareness of sector/real-world applicability. ○ Consistent and appropriate referencing throughout, using APA-7 correctly.

To obtain a DISTINCTION mark (70%), you must have (in addition to the above):	○ Comprehensive report, showing excellent depth and breadth of knowledge and skills. ○ Clear and precise academic writing. ○ Thorough and insightful analysis of results. ○ Demonstrated thorough sector research and awareness of the real-world applicability, showing strong evidence of business value or potential. ○ A wide range of relevant, reliable and up-to-date sources cited and referenced correctly using APA-7.
To obtain an EXCEPTIONAL DISTINCTION mark (80%), you must have (in addition to the above):	○ Evidence of technical mastery beyond the taught syllabus. ○ Clear and logical integration of complex concepts. ○ A well evidenced and thorough critical evaluation of the results, showing deep insights. ○ Writing of publishable quality.

USE OF GENERATIVE ARTIFICIAL INTELLIGENCE IN THIS MODULE

You may use generative AI such as Microsoft Copilot to assist you in the process of undertaking the assessment in the following ways: brainstorming, research, planning, feedback, editing.

All use of generative AI must be explicitly acknowledged, and any artificially generated content (e.g. images) explicitly labelled, with the source of the AI tool referenced using current APA referencing conventions. You can find further guidance on the library website on their AI webpage).

In submitting your assignment, you agree to disclose the extent to which you have used generative AI in preparing this work and include evidence of your AI use in your appendices (e.g. dated screen shots of your use of this tool or copy and paste your AI chat into Word).

Failure to disclose your generative AI use may result in a zero for your assignment and a referral for academic misconduct (see the Student Academic Misconduct Policy under Essential Info in the MyLTU app).

Include one of the following statements on your assignments.

Either:

This assignment used generative AI in the following ways for the purposes of completing the assignment (choose 1 to 5 of the following): brainstorming, research, planning, feedback, editing.

Or:

This assignment did not use generative AI for the purposes of completing the assignment.

ACADEMIC MISCONDUCT

Academic Misconduct includes all forms of academic dishonesty, whether intentional or accidental, that compromise the integrity of the University's assessment processes. It is essential that you review our [Student Academic Misconduct Policy](#) to understand the guidelines and the serious consequences that may arise if they are not followed.

HELP AND SUPPORT

- Please use the module handbook and the [Computer Science Community Teams site](#) as a source of information. Do try and find the answer out yourself before reaching out for help.
- Support will be provided via Microsoft Teams and email during office working hours. You can also ask questions during your timetabled sessions. You may request a one-to-one meeting with a tutor during their published office hours.

- The Student Support team are available seven days a week to support you in all aspects of student life. This could be for support relating to your course, your accommodation or for more general advice such as relationships or your wellbeing. Log in to the LTU app to access support services.
- The full set of university guidelines on assessments, deadlines, and extensions is available on the LTU app, please familiarise yourself with the documentation.
