

ASSESSMENT 1 BRIEF

MODULE CODE	COM7016
MODULE TITLE	MSc Project
MODULE LEADER	Nick Mitchell
ASSESSMENT TITLE	Project Plan
WEIGHTING	10%

ASSESSMENT LEARNING OUTCOMES

Upon successful completion of this assessment, you will be able to:

1. Select, apply and justify appropriate techniques to solve a complex problem that meets a combination of societal, user, business and customer needs as appropriate.
2. Contextualise project work, aligning it with academic literature or with other solutions, as well as with relevant professional codes of practice, research ethics and integrity.
3. (Not applicable to this assessment) Produce a practical, substantial, complex piece of work within a specified timescale based on an agreed specification using project management techniques.
4. (Not applicable to this assessment) Communicate the process and product/findings of the work in an appropriate format, articulating the legal, social, ethical and professional issues surrounding an extended project.
5. (Not applicable to this assessment) Reflect on and evaluate the value of the work achieved and critically reflect on it.

INSTRUCTIONS

This assessment requires you to document your intentions to fulfil your negotiated assessment. You are required to submit a ~1000-word outline that serves as a primary plan for your development project. Complete the 'Project Proposal / Technical Plan' template provided on Moodle to document the deliverables, methods, requirements, scope, risk, issues, timeline, etc. of your project.

This plan should then be used as the basis for your other assessments for this module.

SUBMISSION DETAILS

RELEASE DATE	21 st April 2026
SUBMISSION DATE	8 th May 2026
DELIVERABLES	A report in Microsoft Word or PDF format
SUBMISSION DETAILS	Submit your assignment by uploading it to Moodle <u>before midday</u> on the submission date. This deadline will be automatically and strictly enforced. If your submission is late, your grade may be affected. If you have any issues submitting your work, you must email the assessment team and copy in the module leader <u>before the assessment due time</u>. Do not leave your submission until the last minute to avoid any penalties due to problems with the submission portal. Assessment Team: assessment@leedstrinity.ac.uk Module Leader: n.mitchell@leedstrinity.ac.uk We may ask for a demonstration of your work following the submission. If needed, this will be communicated to you individually via email. Please check your emails regularly.

Your feedback / feed forward and mark for this assessment will be provided within 15 working days.

MARKING CRITERIA

Marks are awarded based on the following criteria. Within each part, aim to complete the work for each section before moving on to the next. The following banded marking scheme is used:

<i>Exceptional</i>	100/95/92		<i>Pass</i>	58/55/52
<i>Distinction</i>	88/85/82		<i>Bare Fail</i>	48/45/42
<i>Distinction</i>	78/75/72		<i>Fail</i>	38/35/32
<i>Merit</i>	68/65/62			

If you have completed all the preparatory exercises and attended your classes, the estimated additional time required to PASS this assessment is approximately 4 - 5 hours.

Please note that threshold marking applies to this assessment. If you do not meet the criteria within a marking category, your overall mark will be capped at the maximum for the preceding category, and you will not be eligible to achieve marks in higher categories. To ensure a pass, you must complete all tasks specified in the PASS Mark (50%) criteria. Only once these requirements have been fully satisfied should you focus on meeting the criteria for higher mark bands.

To obtain a PASS mark (50%), you must have:	○ A project idea, but perhaps too simple or not feasible. ○ Identified a suitable artefact, with associated timeline for completion. ○ Proposed a valid research question. ○ Identified a limited set of project risks. ○ Some consideration of appropriate issues (legal, societal, etc.). ○ Limited use of references to justify decisions (at least 4).
To obtain a MERIT mark (60%), you must have (in addition to the above):	○ A feasible project idea that may need further refinement. ○ A clear and appropriate research question. ○ Some clear deliverables and a reasonably logical timeline. ○ All sections of the template completed. ○ Some consideration of relevant issues (legal, societal, etc.). ○ Suitable references (at least 6).
To obtain a DISTINCTION mark (70%), you must have (in addition to the above):	○ Mostly logical and feasible project idea, showing some creativity. ○ Mostly clear deliverables and logical timeline. ○ Suitable research question(s) ○ Some consideration and justification for methods of analysis, design and implementation of artefact. ○ Adheres to template, using suitable language and tone. ○ Consistent and correct referencing throughout (at least 8), using APA-7 correctly.
To obtain an EXCEPTIONAL DISTINCTION mark (80%), you must have (in addition to the above):	○ Clear, logical, and feasible project idea, showing creativity. ○ Clear deliverables and logical timeline. ○ Excellent discussion of skills/knowledge gap and how it will be addressed. ○ Excellent exploration and mitigation for significant risks to project. ○ Excellent consideration of issues to address equality, diversity, inclusion, etc. as appropriate. ○ Excellent and correct referencing throughout (at least 10).

USE OF GENERATIVE ARTIFICIAL INTELLIGENCE IN THIS MODULE

You may use generative AI such as Microsoft Copilot to assist you in the process of undertaking the assessment in the following ways: brainstorming, research, planning, feedback, editing.

All use of generative AI must be explicitly acknowledged, and any artificially generated content (e.g. images) explicitly labelled, with the source of the AI tool referenced using current APA referencing conventions. You can find further guidance on the library website on their AI webpage).

In submitting your assignment, you agree to disclose the extent to which you have used generative AI in preparing this work and include evidence of your AI use in your appendices (e.g. dated screen shots of your use of this tool or copy and paste your AI chat into Word).

Failure to disclose your generative AI use may result in a zero for your assignment and a referral for academic misconduct (see the Student Academic Misconduct Policy under Essential Info in the MyLTU app).

Include one of the following statements on your assignments.

Either:

This assignment used generative AI in the following ways for the purposes of completing the assignment (choose 1 to 5 of the following): brainstorming, research, planning, feedback, editing.

Or:

This assignment did not use generative AI for the purposes of completing the assignment.

ACADEMIC MISCONDUCT

Academic Misconduct includes all forms of academic dishonesty, whether intentional or accidental, that compromise the integrity of the University's assessment processes. It is essential that you review our [Student Academic Misconduct Policy](#) to understand the guidelines and the serious consequences that may arise if they are not followed.

HELP AND SUPPORT

- Please use the module handbook and the [Computer Science Community Teams site](#) as a source of information. Do try and find the answer out yourself before reaching out for help.
- Support will be provided via Microsoft Teams and email during office working hours. You can also ask questions during your timetabled sessions. You may request a one-to-one meeting with a tutor during their published office hours.
- The Student Support team are available seven days a week to support you in all aspects of student life. This could be for support relating to your course, your accommodation or for more general advice such as relationships or your wellbeing. Log in to the LTU app to access support services.
- The full set of university guidelines on assessments, deadlines, and extensions is available on the LTU app, please familiarise yourself with the documentation.
